3W isolated DC/DC converter in SMD package Ultra-wide input & regulated single output

FEATURES

- Ultra-wide 4:1 input voltage range
- High efficiency up to 84%
- No-load power consumption as low as 0.10W
- I/O Isolation test voltage 1.5k VDC
- Input under-voltage protection, output short-circuit protection, over-current protection
- Operating ambient temperature range: -40°C to +85°C
- Industry standard pin-out

URB_MT-3WR3 series of isolated 3W DC-DC converter products with an ultra-wide range of voltage input of 9-36VDC, 18-75VDC, input to output isolation is tested with 1500VDC, input under-voltage protection, output short-circuit, over-current protection, they are widely used in fields such as industrial control, electric power, instruments and communication.

| | Part No. | Input Voltage (VDC) | | Output | | Full Load | Capacitive |

Typical Characteristic Curves

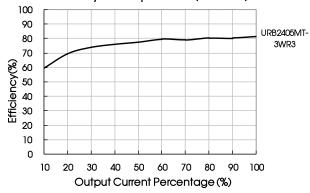

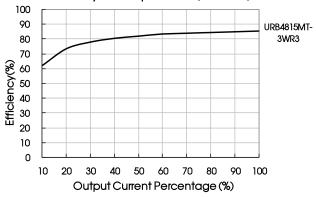

Efficiency Vs Output Load(Vin=24V)

Efficiency Vs Output Load(Vin=48V)

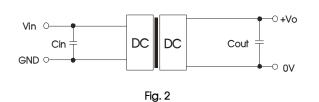

Design Reference

1. Typical application

All the DC/DC converters of this series are tested before delivery using the recommended circuit shown in Fig. 2.

Input and/or output ripple can be further reduced by appropriately increasing the input & output capacitor values Cin and Cout and/or by selecting capacitors with a low ESR (equivalent series resistance). Also make sure that the capacitance is not exceeding the specified max. capacitive load value of the product.

| Vin(VDC) | Cin | Vo(VDC) | Cout |
|----------|-------------------------|---------|----------|
| | | 3.3/5/9 | 10µF/16V |
| 24 | 100µF/50V | 12/15 | 10µF/25V |
| | , | 24 | 10µF/50V |
| | | 3.3/5 | 10µF/16V |
| 48 | 10µF/100V -47µF/100V | 12/15 | 10µF/25V |
| | 47 μι 7 100 ν | 24 | 10µF/50V |

2. EMC solution-recommended circuit

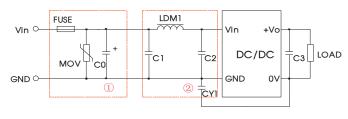

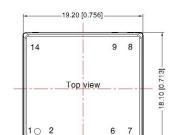

Fig. 3 Notes: We use Part ① in Fig. 3 for immunity and part ② for emissions test. Selecting based on needs.

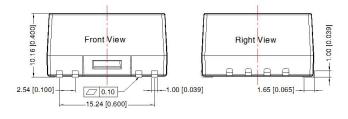

Parameter description

| idinerer descript | ion: | | | |
|-------------------|-----------------------------------------|------------|--|--|

Notes:

- For additional information on Product Packaging please refer to <u>www.mornsun-power.com</u>. Tube Packaging bag number: 58010114, Roll Packaging bag number: 58010115;
- 2. Recommend to use module with more than 5% load, if not, the ripple of the product may exceeds the specification, but does not affect the reliability of the product;
- 3. The maximum capacitive load offered were tested at input voltage range and full load;
- 4. Unless otherwise specified, parameters in this datasheet were measured under the conditions of Ta=25°C, humidity<75%RH with nominal input voltage and rated output load;
- 5. All index testing methods in this datasheet are based on company corporate standards;
- 6. We can provide product customization service, please contact our technicians directly for specific information;
- 7. Products are related to laws and regulations: see "Features" and "EMC";
- Our products shall be classified according to ISO14001 and related environmental laws and regulations, and shall be handled by qualified units.
