

# ITEM: MiniUSB-BM 5p USB-AM 1.8m F (SZC)

## Features:

This USB cable allows you to connect USB devices such as printers, scanners and external hard,disk drives to your computer.

Provides High speed, 480 megabit per second data transfer rates.

Standard USB 2.0 port, it can reduce the times of plugging and unplugging.

Anti-aging, anti-corrosion, anti-cracking, prolong the service life of the product.

Non fading surface, more efficient, more agile, and more reliable.

Greatly enhance the speed of scanning and printing, higher efficiency.

Support plug and play, support hot plug

Support two-way data transmission at the same time

PVC over molding to ensure a lifetime of error-free data transmissions.

shielding can greatly reduce the electromagnetic and radio interference and ensure reliable data transmission.

The data cable is equipped with a true magnetic ring to effectively resist electromagnetic wave interference and increase the transmission speed. The magnetic ring can absorb high frequency.

## Specifications:

1. Wire specifications:28 AWG 4C + D + AL + 28 AWG OD 4.0 ~5.0mm

High quality shielded 28awg Cable. They are 4mm thick.

2. Color: BLACK

3. The material: High purity oxygen-free copper + PVC (environmental protection)

4. Length : 1.8M

5, Compatible with USB 1.0, 1.1, 2.0

6.Standard: Hi-Speed USB 2.0 (480 megabits per second)

7. With true magnetic ring

8.Connectors: MiniUSB-BM 5p to USB-AM
